We barely had time to wrap our Friendsgiving feasts before unpacking the tinsel and twinkly lights. Let's be real — the long lines, endless to-do lists, and cold weather can bring out the Scrooge in even the best of us. And, in addition to the hectic holiday hoopla, this time of year is chock-full of fetes giving us a much-needed excuse to get glam!

### **For Brows: Spa Radiance**

We all know the importance of well-shaped brows in framing your face and making those peepers pop. A good set of brows serves as the backbone, or shall we say brow bone, of your entire look. Whether yours are unruly and in need of taming, or over-tweezed and desperate for an intervention, our go-to brow gal is here to save the day. Marisa "Riss" Perel, the resident brow specialist and makeup artist at S.F.'s Spa Radiance has never met a set of brows she didn't like (at least once she was finished with them!). A true artist, Riss takes the time to evaluate each client's specific needs and tailors her brow-shaping services accordingly. Be sure to follow up your appointment with one of her stunning makeup applications to complete your holiday transformation.

Spa Radiance, 3011 Fillmore Street (between Union and Filbert streets); 415-346-6281.
