All oxygen facials end with the application of a multivitamin mask while medical-grade oxygen is used to transport 52 essential vitamins deep into the skin. **Regular is 60 minutes / Deluxe is 75 minutes**

Grand Luxe Red Carpet Facial

Coveted by celebrities, socialites, and skin care experts, this sumptuous three-hour treatment includes almost every anti-aging tool in our arsenal. Starting with a comprehensive cleansing and diamond peel exfoliation, your esthetician will then perform a specialized lymphatic drainage massage. This is followed by a gentle non-surgical face-lift using microcurrents to restore elasticity, stimulate circulation and re-sculpt the facial structure. Finally, your skin is treated to a nourishing caviar facial mask, a mega-hydrating eye treatment, and healing LED light therapy. Throughout this age-defying treatment, you will be treated to soothing massage including a hand and foot treatment. You will leave in a state of relaxed bliss, receiving compliments at your big event for your visibly firmer, smoother, lifted skin. **180 minutes**

Biologique Recherche Quadruple Lift Facial

This ultimate age-defying facial utilizes four unique lifting treatments that work together to deliver an immediate visible lift (*includes neck, décolleté, and extended microcurrents and manual lifting*):

1. Your skin is prepared with a lymphatic drainage/lifting massage followed by a light peel to exfoliate and ready the skin for the second lift.
2. A combination of crystallized algae, concentrated hyaluronic acid, and milk protein is applied utilizing our exclusive French manual muscle-lifting massage technique.
3. Your skin will be treated to multiple serums and masks, all applied with our exclusive lifting and draining massage technique. We will then use our microcurrent Remodeling Face Machine, employing state-of-the-art bio-electrotherapy to deeply penetrate the serums, hydrate, lift, and re-sculpt the face.
4. The treatment concludes with a lifting, nourishing and hydrating freeze-dried collagen caviar mask, leaving the skin visibly restructured, radiant and smooth. **105 minutes**

Biologique Recherche Triple Lift Facial

The abbreviated version of the Quadruple Lift, this nourishing and lifting facial leaves skin toned, tightened, and hydrated:

1. Beginning with a lymphatic drainage/lifting massage, we will then apply a light peel to exfoliate and ready the skin for maximum product absorption.
2. A combination of crystallized algae, concentrated hyaluronic acid, and milk protein is applied utilizing our exclusive French manual muscle-lifting massage technique.
3. Your skin will be treated to multiple serums and masks, followed by an abbreviated treatment with our microcurrent Remodeling Face Machine, employing state-of-the-art bio-electrotherapy to deeply hydrate, lift and re-sculpt the face. The treatment concludes with a nourishing and hydrating freeze-dried collagen mask, leaving the skin visibly restructured, radiant and smooth. **75 minutes**

Mini Biologique Non-Surgical French Face Lift

1. Beginning with an exfoliating cleanse, your esthetician will then perform a lymphatic drainage/lifting massage to reduce toxic build-up followed by application of a vitamin-infused mask to help energize cells.
2. Next, we will use our microcurrent Remodeling Face Machine, utilizing state-of-the-art bio-electrotherapy to deeply hydrate, lift and re-sculpt the face. You will immediately see a dramatic lift and reduction in the appearance of fine lines and wrinkles. **60 minutes**

Gentlemen's Detox Facial

Tailored for a man's unique skin needs, this deep-cleansing therapeutic facial addresses sensitivity, razor burn, ingrown hairs, environmental stressors, dryness and aging. Designed to boost circulation and rejuvenate skin cells, this anti-aging and detoxifying facial includes a comprehensive cleansing to help eliminate impurities and prepare skin for gentle extractions. Extractions are followed by an organic mask and nutrient-rich serum that will leave skin revitalized and ready for an active day. *60 minutes*

Ultra-Diamond Dermabrasion Facial

Using real crushed diamonds, this next-generation exfoliation treatment replaces the traditional microderm abrasion with a more precise, efficient treatment that treats fine lines, hyperpigmentation, shallow acne scars, and dull skin. Unlike microderm abrasion, which can leave damaging, irritating crystals on the skin, our gentle diamond peel treatment safely removes the outer layers of the skin, stimulating collagen production, resulting in thicker, firmer, more radiant skin. First, our Diamond Dermabrasion and fruit enzyme peel remove dead skin cells, then your esthetician will apply a nourishing and hydrating vitamin-enriched mask. The treatment is completed with a spray of our medical-grade Swiss Oxygen. *60 minutes or 75 minutes includes neck and décolleté*

Teen Dream Facial

Designed to meet the needs of teenage skin, teens are treated to a cleansing, nourishing facial while learning how to control oily skin, acne breakouts, and sensitivity. After a thorough skin analysis, your esthetician will perform a deep cleansing followed by gentle yet thorough extractions. You will then relax into a state of bliss as your esthetician applies nourishing antioxidant serums and masks while treating you to a delightful massage. *60 minutes*

TCA/Peptide Advanced Peel

This multi-layer medical-strength peel takes anti-aging to a new level with a combination of pumpkin, lactic and salicylic acids. Using the most scientifically advanced, results-driven products, this treatment will visibly diminish fine lines, age spots, and discoloration, leaving you with brighter, smoother more even-toned skin.
